

A356 - ESD 15 Nitrile Essential Glove

Collection: ESD Gloves

Range: Hand Protection

Materials: Nylon, Elastane, Carbon Fibre, Polyester

Dipping:

Outer Carton: 24

Product information

The A356 delivers superior ESD protection, durability, and precision. Made with Nylon, Elastane, Carbon Fibre, and a 15-gauge ultra-thin Nitrile Micro Foam coating, these breathable gloves offer excellent grip, tactile sensitivity, and comfort. Reinforced for durability, they are ideal for electronics and sensitive environments.

ESD Gloves

Designed to dissipate static electricity, the Portwest ESD glove range has been tested to EN16350, a glove specific standard, to ensure protection of electronic devices from the risk of damage by electrostatic phenomena and static charge. Ideal for use in electrical component manufacturing.

Hand Protection

A wide and increasing range of hand protection products is available. In order to help cater to every need. Only the best materials and manufacturing methods are used in the production of Portwests' extensive range of Hand Protection products....
