

A783 - Arc Grip 13E Level 3 Glove

Collection: Arc Flash Gloves

Range: HAND PROTECTION

Materials: Aramid, Glass Fiber, Cotton

Dipping:

: 12

Outer Carton: 72

EN 388:2016 +A1:2018 (3X44F)

EN 407:2020 (4222XX)

EN 511:2006 (X2X)

Product information

Introducing the A783 Arc Grip Level 3 Glove, your ultimate solution for Arc Flash, FR, Cold, and Cut Protection. Crafted with precision engineering and designed to exceed stringent safety standards, this glove is your dependable companion in hazardous environments. Here's why it's the perfect choice:

Arc Flash Protection: With an impressive ARC Rating (ATPV) of Level 3, the A783 Arc Grip Level 3 Glove ensures reliable protection against high-energy arcs and flashes, keeping your hands safe from potential electrical hazards.

Flame Resistance (FR): Featuring a specialized FR dip, this glove adds an extra layer of defense against flames and thermal hazards, providing comprehensive protection in intense heat situations.

Cold Protection: Engineered to withstand cold temperatures, this glove keeps your hands warm and functional even in the coldest of environments, ensuring comfort and dexterity are maintained throughout your work.

Cut Protection: Built with a 13/10 gauge construction, this glove offers exceptional cut resistance, meeting ANSI Cut Level A5 standards. Whether handling sharp objects or working in rugged conditions, rest assured your hands are shielded from cuts and lacerations.

Enhanced Durability: Compliant with EN 388:2016 standards, this glove boasts outstanding abrasion resistance (4), tear resistance (4), puncture resistance (3), and exceptional blade cut resistance (E), ensuring long-lasting performance in demanding work environments.

Multi-functional Design: Certified according to EN 407:2020 standards, this glove provides outstanding protection against thermal hazards, molten metal splashes, and radiant heat, making it suitable for a wide range of industrial applications.

Cold Weather Performance: Conforming to EN 511:2006 standards, the A783 Arc Grip Level 3 Glove offers superior resistance to cold, featuring an insulating layer that keeps your hands warm and comfortable, even in freezing conditions. Experience unparalleled safety and performance with the A783 Arc Grip Level 3 Glove. Whether you're in electrical utilities, manufacturing, or any high-risk industry, rely on this glove to keep your hands safe and secure, allowing you to focus on your work with confidence and peace of mind.

HAND PROTECTION

A wide and increasing range of Hand Protection styles is available. In order to help cater to every need. Only the best materials and manufacturing methods are used in the production of Portwest's extensive range of Hand Protection products.

Standards

ANSI/ISEA 105 - 2016 CUT Level (A6)

ANSI/ISEA 105 - 2016 ABRASION Level (4)

ANSI/ISEA 105 - 2016 PUNCTURE Level (4)

ASTM F2675-13 (Level 3)

EN ISO 21420:2020 Dexterity 5

Features

- Flame resistant lining for added protection
- Flame-resistant neoprene coated palm allows for excellent grip
- Provides contact protection up to 250°C for 15 seconds
- ANSI cut level A6
- Specially designed for use in cold conditions
- Seamless 13 gauge liner
- Warm 10 gauge acrylic liner for cold protection
- Exceptional Arc Flash Rating (ATPV) = 27 cal/cm²
- New style
