

A791 - Mechanics Anti-Vibration Glove

Collection: Mechanic Gloves

Range: Hand Protection

Materials: Nylon, Polyurethane, Polyester, Elastic

Outer Carton: 48

Product information

Experience unparalleled safety and productivity with our cutting-edge anti-vibration glove, expertly designed to reduce the effect of harmful hand arm vibration. Our innovation lies in the shock-absorbing palm material, engineered to deliver exceptional protection without adding bulk. This glove is perfectly suited for professionals who handle jackhammers or concrete breakers and attains an exceptional level of dexterity, reaching the highest rating of level 5.

Mechanic Gloves

Designed to enhance grip for precision work, this collection protects from a broad range of hazards. The gloves are constructed from highly engineered textiles and offer an extensive selection of colours, lining, and size options. This collection is suitable for mechanic applications, general construction, material handling, carpentry and utility work.

Hand Protection

A wide and increasing range of hand protection products is available. In order to help cater to every need. Only the best materials and manufacturing methods are used in the production of Portwests' extensive range of Hand Protection products....
