

PRODUCT SPECIFICATION & TECHNICAL DATASHEET

B121 - Thermal Trousers

Collection: Baselayer

Range: All Weather Protection

Shell Fabric: 50% Polyester, 50% Cotton, 200g

Outer Carton: 48

Product information

The B121 creates a layer of warmth around the lower body. The soft polycotton fibres and fabric knitting mean that heat is trapped in. Cuffed hem and elasticated waist provide a comfortable fit.

Baselayer

Baselayer garments are made from a 100% Wicking Polyester which draws moisture away from the body keeping the wearer cool, dry and comfortable under exerting conditions. The garments are suitable for all levels of activity and can be worn as an extra thermal layer for workwear in cold weather or as a technical sports garment for added comfort and enhanced performance.

All Weather Protection

Portwest All Weather Protection is engineered with exceptional fabrics and designs, allowing an easy transition between work and leisure. Tested to withstand the rigours of everyday wear, each garment has been designed and manufactured using the best quality materials and high technology construction techniques to ensure total satisfaction with wear after wear.
