Product information

Designed to achieve maximum Cut Level F protection, the CT67 is constructed using state-of-the-art techniques ensuring it is free from glass and steel fibres while not compromising on cut resistance. The breathable 13 gauge liner ensures an excellent fit and the nitrile foam coating offers excellent grip in wet and oily conditions.

Portwest CT SERIES™

Introducing the Portwest CT SERIES™ collection of cut resistant gloves. State-of-the-art production techniques ensures that these gloves contain no glass or steel fibres while offering excellent levels of cut resistance. This new premium collection comprises of six new styles; five gloves and one protective sleeve. Certified to the EN388:2016 standard, this collection offers outstanding cut protection levels from Level C up to the highest Level F. Under the American ANSI standard the levels range from A3 to A8. The Portwest CT3 collection is ideal for sensitive skin, offering premium hand protection for the 21st Century.

Hand Protection

A wide and increasing range of hand protection products is available. In order to help cater to every need. Only the best materials and manufacturing methods are used in the production of Portwests' extensive range of Hand Protection products....
