

FP02 - Webbing 2m Anchorage Sling

Collection: Anchorage Device

Range: Height Safety

Materials: Polyester

Inner Pack: 24

Outer Carton: 48

Product information

Engineered using heavy duty polyester webbing for ultimate durability, the 2 metre webbing anchorage sling allows the user to create a safe and reliable connection point which adjusts to a wide variety of anchorage points.

Anchorage Device

Anchorage devices are common fall protection solutions in work areas that lack existing anchor points for personnel tie-off. They are certified to the EN 795 standard, making them approved anchor points for any elevated work area that poses a risk of fall to the worker. These points are responsible for connecting the user to a lifeline or lanyard making them must-haves for the safety of workers at height.

Height Safety

Height Safety is put in place to prevent the risks associated with falling from heights, reducing impact force, restricting obstacle/ground collision and restricting users from fall hazard areas. Portwest offer a full range of Height Safety products for working at height.

Standards

EN 795:2012 Class B

Features

- Ultra lightweight for long uses
- Quick and easy installation
- Suitable for a wide range of applications
- Max rated load 100kg
- 10 Year shelf life from manufacturing date outlined in product label
- CE certified
