

KP60 - Thigh Support Knee Pad

Collection: Kneepads

Range: Knee Pads

Materials: PP Cap, TPR, 600D Polyester, SBR, EVA Foam, Gel

Outer Carton: 16

Product information

Durable neoprene thigh straps help to keep the kneepad in place without cutting off circulation. A heavy duty non-slip shield protects the knees from cuts or scratches on any type of terrain. This knee pad has comfortable but durable core soft gel and EVA foam padding cushion.

Kneepads

Portwest knee pads offer a range of knee protection to suit every situation, type 1 (strap on knee pads) and type 2 (insert knee pads). All Portwest knee pads use premium high density material to give the user the best protection possible for their knees no matter the hazard. Diverse materials such as EVA foam, neoprene rubber and silicone gel inserts are used to ensure maximum wearer comfort. Ergonomics is a key feature in our knee pads design and is backed up in the positive feed back we receive from our wearer trials.
