Product information

The Vending Antistatic PU Fingertip Glove has been specially packed for vending machines. Constructed from 13g Nylon and a Carbon Fibre shell to divert static electricity. The fingertips are dipped for excellent dexterity and precision applications. The packaging itself has been compressed to maximise machine capacity.

Hand Protection

A wide and increasing range of hand protection products is available. In order to help cater to every need. Only the best materials and manufacturing methods are used in the production of Portwests' extensive range of Hand Protection products....
