

SK11 - Thermal Sock

Collection: Socks

Range: Foot Protection

Product information

This sock has wool content which is a great conductor of heat and will keep your feet warm in colder climates. There is cushioning throughout the inside of the sock which will help to keep the heat in and reduce friction. The mesh ventilation at the inner ankle will allow your foot to breathe and the ribbed knit will help prevent any irritation from contact with the shoe when walking.

Socks

The unisex range of workwear socks come in a variety of styles and colour. Features include reinforced heels and toes for durability and a cushion sole area providing extra comfort and warmth.

Foot Protection

Innovation, design, styling and quality components define the Portwest foot protection collection.

Features

- Sock height 25cm
- Seamless toe sock providing a snug and secure fit
- Ribbed leg design provides a snug fit and prevents the sock slipping down
- Cushioned heel reduces friction between the foot and the shoe
- Ribbed inner ankle support structure provides a snug and supportive fit
- Mesh ventilation to help wick away moisture from the skin
- Retail tag which aids presentation for retail sales
- 9 gauge liner for dexterity
