

SK20 - Modaflame Sock

Collection: Modaflame™

Range: Flame Resistant Multi-Norm

Product information

Our Modaflame Sock offers the wearer great protection and comfort. The leg of the sock is elasticated for a snug fit.

Standards

EN ISO 14116
EN 1149 -3

Modaflame™

Garments can be layered to achieve an overall Arc Thermal Performance Value (ATPV) or Energy Break open threshold (Ebt) Rating. For example, thermals may achieve an Ebt of 4.3 cal/cm², and an outer coverall may achieve an ATPV of 13.6cal/cm². However the combination ATPV will be greater than the sum of the two single layers, as the air gap between the two layers affords the wearer additional protection.

Flame Resistant Multi-Norm

This industry leading flame resistant range provides multi-standard protection for hazardous environments. These state of the art products are the result of years of experience combined with advanced technology and market research. Commitment to the health, safety and comfort of the wearer can be seen in the wide range of products suitable for all climates and end uses.

Features

- Sock height 28cm
- Inherent flame resistant qualities will not diminish with washing
- Elasticated for a comfortable fit
- Knit gauge 12 for shape retention
- Two tone design
- Anti-static
- Retail tag which aids presentation for retail sales
- CE certified
- Wash at 40°C using non-biological detergent, re-shape after wash. Do not tumble dry.
- UKCA marked
