

SW20 - Leather Welding Sleeves

Collection: Safewelder

Range: Flame Resistant

Shell Fabric: Split Cowhide Leather, thickness 1.3 mm

Outer Carton: 40

Product information

Premium quality welding sleeves made of split cowhide leather with stitching made from Para-aramid. Designed to protect the forearm and elbow in the toughest environment. The elasticated ends ensures maximum protection and a secure fit for welders.

Safewelder

Safewelder is made using premium split cowhide leather and stitched with para-aramid thread. Designed to last in the toughest environments, this collection offers enhanced protection when welding.

Flame Resistant

This industry leading flame resistant range provides multi standard protection for hazardous environments. These state of the art products are the result of years of experience combined with advanced technology and market research. Commitment to the health, safety and comfort of the wearer can be seen in the wide range of products suitable for all climates and end uses.
